The URMAS Trade Town is a huge complex building of shops and original markets with own traditions. The Trade Town offers everything one might need in more than 2000 stores: from a tooth brush to fur coats, furniture, etc. Visitors do not need to waste much time searching for the items they need because the goods are displayed in small-sized glass "boutiques". The main necessities are put on view near the main "aisles". A convenient way to get to the URMAS Trade Town from the center of the city is by trolleybus No. 15 or 16.
