COGNITIVE TRAIL OF JIESIA

P. Babicko g., Rokai, Kaunas

Jiesia State Landscape Reserve is a territory in Kaunas city and Kaunas district. In the reserve area, which covers 447.6 ha, you can find the protected landscape of the Jiesia Valley with spectacular outcrops and erosive slopes, rare species of plants and animals. The nature reserve has a place for nature exploration and walking, and the Jiesia educational trail, which stretches for about 2 km. Following this path, at least three outcrops open up, you may stop and admire the bends of the Jiesia River, the slopes, vegetation and outcrops there. We recommend that you

prepare the cameras for breathtaking shots and urge you to remain alert and careful - the slopes of the Jiesia stream are really steep.
