ALEKSOTAS OBSERVATION POINT

V. Čepinskio g.

24/7

The hill itself is one of the best places to fall in love with the panoramic views of Kaunas, conveniently reachable by funicular, the vintage and very trendy means of transportation in Kaunas. Make sure to charge your camera.

INTERESTING: Right after the devastating earthquake and tsunami in 2011, the students of Aleksotas Jurgis Dobkevicius Progymnasium started making gifts for kids in Japan. As a symbol of support, a pine tree was planted near the school and it

has been growing with the warm support of the community ever since. The pine tree is located near the Aleksotas panorama.
